

AMOL KANAGO

Belagavi, Karnataka | +91 7795070927 | amolkanago0@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY:

Frontend Software Engineer specializing in React.js and modern JavaScript with experience in building enterprise applications, healthcare interoperability platforms and administrative portals. Proficient in React.js, Next.js, API Integration, authentication and responsive UI development.

TECHNICAL SKILLS:

- **Frontend:** JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman
- **Concepts:** API Integration, Authentication, Agile Development, Component-Based Architecture

WORK EXPERIENCE:

Software Developer | iNetFrame Technologies Pvt. Ltd. | Dec 2024 – Dec 2025

- Developed and owned frontend modules for healthcare data management, user administration, connector management, SQL operations and user management within enterprise React.js applications enabling centralized control of data workflows and platform operations.
- Integrated REST APIs, Role-Based Access Control (RBAC), and healthcare interoperability workflows while improving application performance, reliability, and user experience.

MERN Stack Trainer | Softmusk Info Pvt. Ltd | Sept 2022 – Oct 2024

- Delivered training in JavaScript, React.js, Node.js, Express.js, and MongoDB to 100+ students through classroom and project-based learning programs.
- Mentored 20+ full-stack projects involving API integration, authentication, database design, debugging, and deployment workflows.

KEY PROJECTS:

Hyperion UI Portal

- Engineered enterprise React.js applications for healthcare data management, workflow automation, user administration, and connector management, improving workflow efficiency by 30% and reducing configuration errors by 40%.
- Built API driven dashboards, authentication workflows, and RBAC solutions, that improved platform reliability and reduced post release defects by 25%
- Supported healthcare interoperability through scalable frontend architecture and seamless API Integration

Payer-to-Payer Healthcare Platform

- Developed React.js interfaces supporting payer-to-payer healthcare data exchange and interoperability workflows.
- Built reusable UI components and API integrations to improve maintainability and data accessibility across healthcare systems.

EDUCATION:

Bachelor of Engineering in Information Science
KLS Gogte Institute of Technology

Graduated - 2022
